

# Fundamentals For 6th Grade Band

**Trombone  
Baritone**

## 1. Starting Note

Tap your foot with the beat, while playing and resting. Feel the pulse. Breathe on the beat before you play. Breathe together to play together.

Think 1+2+3+4+ with the beat in your mind while you play.

Listen to everyone else, not yourself, while you play.

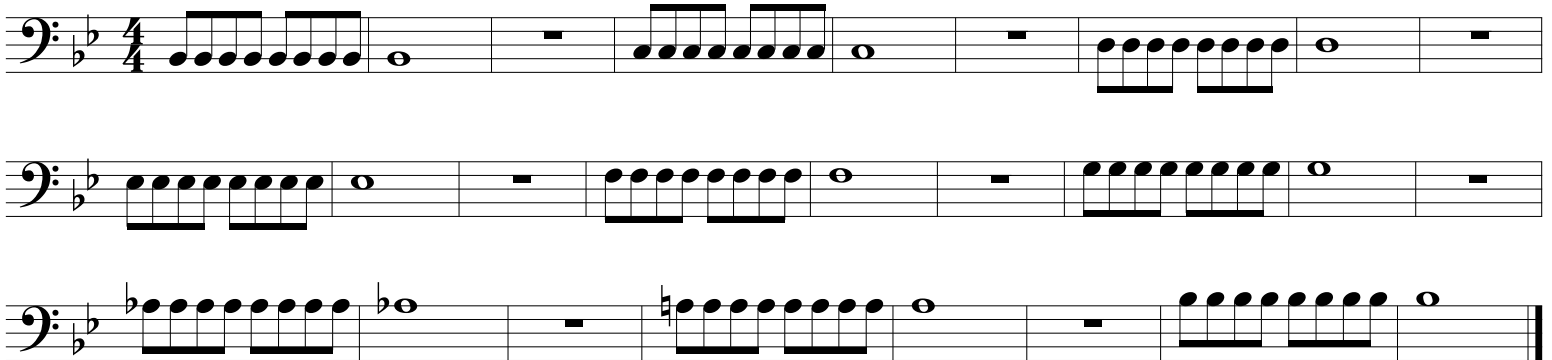

Are you in tune? Does everyone sound the same?

Watch your Conductor, play the way they are conducting.

Tone. Nothing is more important than your tone quality.

## 2. 8th Notes and Long Tones

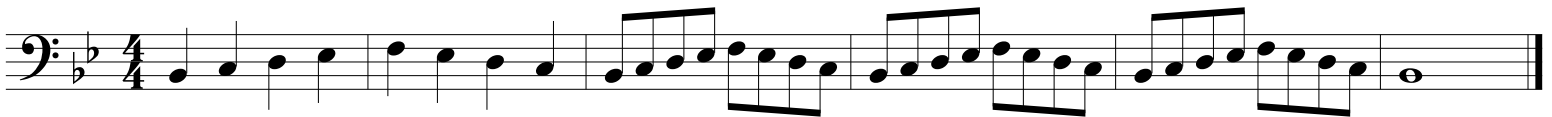

*stop-2-3-breathe*

## 3. Flexibility

## 4. Five Note Scale

## 5. Duet, Part One

## 6. Duet, Part Two

## 7. Happy Birthday
